American Heart Association® Heart Walk.®

We truly value your leadership and invite you to join our efforts to make our communities healthier as we battle heart disease and stroke in Hawaii.

Cardiovascular diseases account for over 1 out of 3 deaths in Hawaii annually, more than the next five leading causes of death combined. Heart disease is Hawaii's leading killer, and stroke is the #3 killer and a leading cause of serious, long-term disability. Both diseases disproportionately effect Native Hawaiians and Asian Pacific Islanders.

We extend an invitation to you and your employees to participate in the Hilo Heart Walk. All proceeds from the Walk benefit the American Heart Association of Hawaii's research, education, health advocacy and community services programs. The American Heart Association is the nation's largest voluntary health organization dedicated to being a relentless force for a world of longer, healthier lives.

MAHALO TO OUR SPONSORS!
